INDEX - VOLUME 27

Acetone, influence on toxicant toxicity to Daphnia 316
Acid, effect on frogs 160
Acid Rain, effect on fish egg development 7
Acrylamide, selective effect on peripheral nerves 888
Acrylonitrile, detection in air and fumigated foods 426
Activated Carbon, intraparticle diffusion study 610
Aflatoxin, response of Lilium longiflorum, cv, 'Ace' pollen 738
Aliquat 336, toxicity to Daphnia 316
Aluminum, effects of alum to midge larvae 59
  influence of complexans on toxicity to fish 221
  tracer for determining fly ash levels in lung tissue 139
Aminocarb, vapor-phase photochemistry 250
Ammonia, method for sampling during exposure studies 282
Animal wastes, used for growing alga 151
Arsenic, cytotoxic response to exposure in catfish 645
  levels in mammals near unmined Cu-Zn deposits 28
  possible cause of a Florida fish kill 639
Atrazine, bacterial bioassay measuring dissolved oxygen depletion 577
  effect of acetone on toxicity to algae 13
  toxic effect and accumulation by algae 872

Bacterial Bioassay 433
Benzene, discharge from an oil and gas production platform 167
  hematotoxicity of inhaled vapors and ethanol ingestion 175
  proliferation of myeloblasts and/or promyelocytes in mice 17
Birds, effect of fenitrothion spraying of fruit trees 856
  effects of PCBs on metabolic rates at low ambient temperatures 678
  relationship of organochlorine residues in brain and carcass 499
  uptake of DDT from the yolk sac into the embryo 393
Boric Acid, acute and chronic toxicity to Daphnia 309
Bromacil, detection in Ponderosa pine 268
  removal from contaminated clothing by laundering 716
Bromodichloromethane, levels in drinking water 295

Cadmium, bacterial bioassay measuring dissolved oxygen depletion 577
  bioavailability to clam 798
  effect of histidine on uptake from digestive system 34
  effect of water hardness on toxicity to fish eggs 187
  effect on humoral antibody levels in trout 42
  effect on oyster fecundity and larvae viability 344
  levels in blood and urine of phosphate workers 806
  levels in mammals near unmined Cu-Zn deposits 28
  poor recovery using extraction procedures 810
  possible cause of a Florida fish kill 639
  seasonal variation of levels in mussel 821
  variations of some elements in malformed fish 193
Captan, effect on soil enzyme activity 109
Carbaryl, biodegradation in a simulated aquatic environment 412
  effect of aerial application on trout 534
  removal from contaminated clothing by laundering 716
Carbofuran, effect on soil enzyme activity 109
Chloralkylene 12, response of trout MFO to experimental feeding 605

Chlordane, contamination of living areas after termite treatment 406
effect on soil enzyme activity 109
removal from contaminated clothing by laundering 716
Chlordimeform, cardiovascular action in the dog 707
Chlorfenvinphos, effect on soil enzyme activity 109
Chlorination, effect on mutagenic potential of drinking water 1
mutagenicity of water samples 765
Chlorine, chloroform in poultry carcasses exposed to treated water 145
Chlorine Dioxide, chloroform in poultry carcasses exposted to treated water 145
Chlorobenzilate, levels in urine of citrus workers 235
Chlorodibromomethane, levels in drinking water 295
Chloroform, in poultry carcasses exposed to chlorinated water 145
levels in drinking water 295
Chlorophenol, chemical toxicity test using bacteria 289
Chlorpyrifos, air concentrations resulting from pest control strips 122
analysis of trichloropyridinol in blood plasma 842
effect on soil enzyme activity 109
Chromium, possible cause of a Florida fish kill 639
Clam, bioavailability of cadmium 798
Coal Tar Creosote, effect on Daphnia 783
Copper, bacterial bioassay measuring dissolved oxygen depletion 577
levels in mammals near unmined Cu-Zn deposits 28
possible cause of a Florida fish kill 639
seasonal variation of levels in mussel 821
statistical model for estimating seawater concentrations 660
use of barnacles as a pollution indicator in coastal areas 654
use of the Microtox test 753
Crab, effect of histidine on Cd-uptake from digestive system 34

Daphnia, use of an electronic particle counter 440
DDD, relationship of residues in brain and carcass of ospreys 499
DDE, relationship of residues in brain and carcass of ospreys 499
DDT, analytical method used for tissues from seal 489
excretion following administration to rat and quail 386
levels in Hawaiian human milk 506
residues in a Norwegian lake ecosystem 397
uptake from the yolk sac into the embryo 393
Desmedipham, microbial degradation 529
Diazinon, air concentrations resulting from pest control strips 122
bacterial bioassay measuring dissolved oxygen depletion 577
effect on soil enzyme activity 109
intake and excretion in freshwater fish 244
removal from contaminated clothing by laundering 716
Dibromochloropropane, depression of sperm count in workers 551
tris(1,3-Dichloroisopropyl) Phosphate, toxicity to fish 775
Dichlorophenol, chemical toxicity test using bacteria 289
2,4-Dichlorophenoxyacetic Acid, effect on soil enzyme activity 109
residues in cowberry, bilberry, and lichen 731
stress response of juvenile salmon 877
Dieldrin, effect on soil enzyme activity 109
levels in Hawaiian human milk 506
relationship of residues in brain and carcass of ospreys 499
Di-2-(ethylhexyl)phosphoric Acid, toxicity to Daphnia 316

Diphacinone, response of rats to chronic ingestion 599
Diuron, bacterial bioassay measuring dissolved oxygen depletion 577

Endosulfan, toxicity to fish 239, 850
Ethion, effect on soil enzyme activity 109
oxygen analogue formation and dissipation 512
Ethoprop, effect on soil enzyme activity 109
residues in selected vegetables 84
Ethylene Dibromide, depression of sperm count in workers 551
Ethylene Diurea, effect on the growth of plant pathogenic fungi 885
Ethylene Oxide, detection in air and fumigated foods 426
Euphorbia lathyris, possible health hazard of compounds in 894

Fenitrothion, effect on songbirds after aerial spraying of fruit trees 856
vapor-phase photochemistry 250
Fensulfothion, effect on soil enzyme activity 109
Fenvalerate, accumulation in lamb tissue after exposure via diet 869
effects on estuarine benthic communities 256
Fish, accumulation and retention of mirex by trout 79
accumulation of PCBs 829
acute toxicity of 54 industrial chemicals to minnows 596
cytotoxic response to arsenic exposure 645
effect of acetone on aquatic bioassays involving PCBs 359
effect of aerial application of carbaryl 534
effect of Pb and Cd on humoral antibody levels 42
effect of low pH on egg development 7
effect of petroleum exposure on predatory behavior 458
effect of temperature on toxicity of hydrazine 588
effect of water hardness on Cd-toxicity to eggs 187
evidence for metal poisoning in a Florida fish kill 639
hepatic MFO response to 10 organochlorine compounds 605
influence of complexans on toxicity of aluminum 221
intake and excretion of diazinon 244
mercury in muscle tissue 201
mercury levels in fish imported into Lebanon 209
patterns of PCB accumulation by fry 368, 376
residues of DDT in a Norwegian lake ecosystem 397
static acute toxicity of sodium bromide 326
stress response to 2,4-D 877
toxicity, absorption and elimination of phosphoric acid triesters 775
toxicity of endosulfan 239, 850
variations of some elements in Cd-induced malformed fish 193
Flame Retardants, toxicity to fish 775
Fly Ash, determination in lung tissue 139
Fonofos, effect on soil enzyme activity 109

Glyphosate, influence on nitrogen-cycling in soil 724
residues in cowberry, bilberry and lichen 731

HDEHP, toxicity to Daphnia 316
Heptachlor Epoxide, levels in Hawaiian human milk 506
relationship of residues in brain and carcass of ospreys 499
Hexachlorobenzene, levels in Hawaiian human milk 506
response of trout MFO to experimental feeding 605

Hexachlorobutadiene, response of trout MFO to experimental feeding 605
Hexachlorocyclohexane, electroneurophysiological studies on neurotoxic effects 704
levels in Hawaiian human milk 506
Hexachlorocyclopentadiene, determination in drinking water 303
Hydrazine, effect of temperature on toxicity to fish 588
Hydrocarbons, discharge from an oil and gas production platform 167
method for concentration from water 790

Kraft Pulp Mill Effluent, effect on sea urchin eggs 616

Lead, contamination of soil in Baghdad City, Iraq 634
effect on humoral antibody levels in trout 42
levels in box turtles 349
levels in mammals near unmined Cu-Zn deposits 28
levels in New Mexico street dirt 353
protective action of calcium phytate in mice 630
statistical model for estimating seawater concentrations 660
use of the Microtox test 753
Leptophos, effect on soil enzyme activity 109
Lindane, and porphyrin accumulation in sheep bones 72
effect on soil enzyme activity 109

Malathion, effect on soil enzyme activity 109
residues in citrus 864
removal from contaminated clothing by laundering 716
Maneb, effect on soil enzyme activity 109
Manganese, effect of pH on toxicity to fungi 474
seasonal variation of levels in mussel 821
MCPA, residues in cowberry, bilberry and lichen 731
Mercury, catalase activity and uptake by mushrooms 816
effect on soil enzyme activity 109
effect of temperature on transfer from Chlorella to Daphnia 624
in muscle tissue of fish from Northern Maine lakes 201
laboratory instability of methylmercuric chloride 467
levels in canned and frozen fish imported into Lebanon 209
levels in mammals near unmined Cu-Zn deposits 28
possible cause of a Florida fish kill 639
use of the Microtox test 753
Mercury, methyl; toxic response of a freshwater planarian 49
urinary enzymes as indicators of kidney damage 55
Metalkamate, effect on soil enzyme activity 109
Metallothionein-like Protein, from rat placenta 671
Methidathion, residues in citrus 864
Methyltricaprylyammonium Chloride, toxicity to Daphnia 316
Milk, organochlorine pesticide residues in Hawaiians 506
Mirex, accumulation and retention by trout 79
response of trout MFO to experimental feeding 605
Mono-2-ethylhexyl Phthalate, rat teratogenicity and Salmonella mutagenicity 181

Naphthalene, effect on Daphnia 783
Nickel, levels in mammals near unmined Cu-Zn deposit 28
seasonal variation of levels in mussel 821

use of the Microtox test 753
Nitrapyrin, effect on soil enzyme activity 109
Nitrosamines, transformation in soil 115
No. 2 Fuel Oil, effect on Daphnia 783
Nonachlor, levels in Hawaiian human milk 506

Octachlorostyrene, response of trout MFO to experimental feeding 605
Oxamyl, effect on soil enzyme activity 109
Oxychlordane, levels in Hawaiian human milk 506
Oysters, effect of Cd on fecundity and larvae viability 344
Ozonation, effect on mutagenic potential of drinking water 1
Ozone, effect on erythrocyte survival in sheep 126

Parathion, effect on soil enzyme activity 109
oxygen analogue formation and dissipation 512
Parathion, Methyl; effect of toxaphene on persistence on cotton 90
laundering of contaminated fabric 518
removal from denim fabrics by laundry procedures 101
worker exposure to foliar residues on apples 95
Pentachlorophenol, analytical method used for tissues from seal 489
bacterial bioassay with antioxidants present 433
bacterial bioassay measuring dissolved oxygen depletion 577
chemical toxicity test using bacteria 289
determination in urine 380
purification problems 836
toxicity to Azotobacter vinelandii 230
Permethrin, effect of acetone on toxicity to algae 13
effect on soil enzyme activity 109
Petroleum, effect on predatory behavior of salmon 458
hydrocarbon discharge from an oil and gas production platform 167
mutagenic activity in diesel exhaust particulates 463
toxicity of shale oil process wastewater to Daphnia 338
Phenanthrene, effect on Daphnia 783
Phenmedipham, microbial degradation 529
Phenol, chemical toxicity test using bacteria 289
use of the Microtox test 753
Phenolic Compounds, toxicity to aquatic plants 332
Phorate, effect on soil enzyme activity 109
Phosalone, oxygen analogue formation and dissipation 512
Pirimiphos-methyl, identification and analysis in food 524
Polybrominated Biphenyls, response of trout MFO to experimental feeding 605
Polychlorinated Biphenyls, accumulation by fish 829
analytical method used for tissues from seal 489
biodegradation in sewage wastewater 695
effect of acetone on aquatic bioassays 359
effects on metabolic rates of doves 678
evaluation of 3 sorbents for retention 226
levels in Hawaiian human milk 506
patterns of accumulation by lake trout fry 368, 376
relationship of residues in brain and carcass of ospreys 499
residues in quahogs 683
response of trout MFO to experimental feeding 605
selective uptake by estuarine vegetation 481

study on uptake from dried municipal sewage sludge 689
Polychlorinated Dibenzo-p-dioxins, presence in latex nipples 68
Polychlorinated Naphthalene, response of trout MFO to experimental feeding 605
Polycyclic Aromatic Hydrocarbons, levels in human fat and liver 23
Promecarb, microbial degradation 529
Prometon, removal from contaminated clothing by laundering 716
Propamocarb, microbial degradation 529
Propoxur, air concentrations resulting from pest control strips 122
removal from contaminated clothing by laundering 716

Rhodamine B, toxicity to the housefly 274

Salmonella typhimurium test 758, 765
applied to drinking water 1
methods for concentrating mutagens in water 442
mutagenic activity in diesel exhaust particulates 463
Selenium, levels in urine expressed in terms of creatinine excretion 213
Sodium Bromide, static acute toxicity to fathead minnows 326
Soil, effect of pesticides on enzyme activities 109
transformation of nitrosamines 115

2,4,5-T, residues in cowberry, bilberry and lichen 731
Terbufos, effect on soil enzyme activity 109
Thionazin, effect on soil enzyme activity 109
Thiram, effect on soil enzyme activity 109
Toxaphene, effect on methyl parathion persistence on cotton 90
Triadimefom, metabolism in grain and straw of ripe barley 543
Trialkylphosphates, levels in Canadian drinking water 450
Triarylphosphates, levels in Canadian drinking water 450
Triazophos, effect on soil enzyme activity 109
Tributyl Phosphate, toxicity to fish 775
Trichlornat, effect on soil enzyme activity 109
Trichlopyr, residues in cowberry, bilberry and lichen 731
Trichlorobenzene, and porphyrin accumulation in sheep bones 72
response of trout MFO to experimental feeding 605
Trichloroethyl Phosphate, toxicity to fish 775
Trichlorophenol, chemical toxicity test using bacteria 289
3,5,6-Trichloropyridinol, analysis in blood plasma 842
Triphenyl Phosphate, toxicity to fish 775

Uranium, dispersion along roads paved with phosphate slag 470

Vanadium, seasonal variation of levels in mussel 821
Vinyl Chloride, determination in water by headspace analysis 583

Worker Exposure, methyl parathion applied to apple trees 95

Zinc, levels in mammals near unmined Cu-Zn deposits 28
possible cause of a Florida fish kill 639
seasonal variation of levels in mussel 821
statistical model for estimating seawater concentrations 660
use of barnacles as a pollution indicator in coastal areas 654
use of the Microtox test 753

Zineb, effect on reproduction 418
